

V-TUF PROFESSIONAL KCQ WATER SPRINKLER - SKID MOUNT - B1.999
Operating instructions

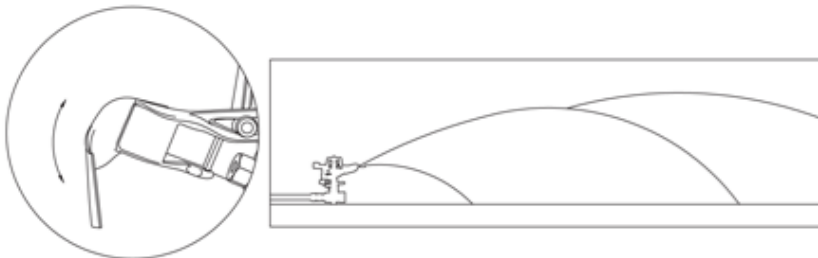

Water inlet connection specification (ideal on mains water supplies)

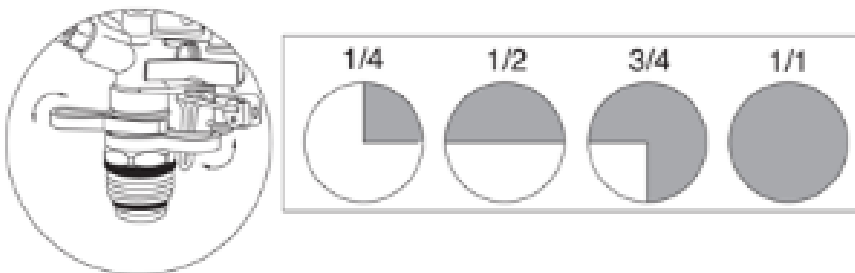

- up pressure of 3 bar
- water flow 1000lt/h
- adjustable water jets up to 14,5 m.

Operating instructions:

1. **Item 1:** Adjustment flap to adjust the distance of water jet – see image below:

2. **Items 2:** Watering circle adjusters adjust these as required– see diagram below:
3. **Item 3:** This is normally in the down position for part circle watering, but in the up position for 360-degree watering.

4. **Item 5:** this is your water inlet coupling.
